Outcome Indicators															
1. Percentage of Tactical Units provided to force employers that are in prescribed readiness condition		79%	79%	79%	79%	79%	20%	48%	63%		63%	-16%	For the period in review, out of the 208 tactical units provided to UCs (w/ JTF-NGR), 131 or 63% attained the prescribed REDCON of 83% (Output Indicator 3). The increased accomplishment rate as compared to the previous quarter is attributed to the completion of individual and unit training of several tactical units. Nonetheless, the set target remains to be attainable before the yearend upon completion of all training programs of these tactical units.		
2. Percentage of Ready Reserve Units in prescribed readiness condition		60%	60%	60%	60%	60%	0%	1%	4%		4%	-56%	The attainment of the 68% prescribed REDCON by the two (2) RRbn is attributed to the successful implementation of its programmed unit training, despite the continued COVID-19 restrictions imposed by most local government units. The PA will continue to exhaust all efforts to expedite the enhancement of the training REDCON of the remaining RRbn in the last quarter of the year to attain the set target of 60%.

Output Indicators														
a. Tactical Battalions		240	240	240	240	240	220	220	220		220	-20		The variance for this indicator will be satisfied once all programmed activation of units that are already on the different stages of the organizational development process, will be approved by the SND.
b. Ready Reserve Battalions		86	86	86	86	86	82	84	84		84	-2		The variance of two (2) RRBns for Davao Occidental and Dinagat Islands will be organized within the remaining quarter of the year. The delay in the organization of these RRBns is due to the unavailability of a qualified reservist to compose said units.

Moreover, this accomplishment is expected to further increase in the last quarter of the year.
b. Ready Reserve Battalions		68%	68%	68%	65%	68%	28%	41%	49%		49%	-19%		The low implementation rate of programmed training for RRBns is the primary reason for the low accomplishment rate. For the period in review, the average training REDCON of the 84 RRBns is only 19%. Nevertheless, the PA will initiate the appropriate intervention to address this deficiency to somehow attain the gap in the annual REDCON target of 68% for RRBns.
