Outcome Indicators														
1. Percentage of Tactical Units provided to force employers that are in prescribed readiness condition		79%	79%	79%	79%	79%	20%	-	-	-	-	-59%	The 20% accomplishment for the period represents the 41 tactical units provided to UCs that attained the prescribed Readiness Condition of 83% (Output Indicator Nr 2a), out of the 208 tactical battalions provided to UCs. Meanwhile, the -59% variance represents the 124 tactical units whose REDCON is still below the prescribed 83% rating, out of the targeted 165 tactical units for the year or 79% of the 208 units provided to UCs. The low accomplishment rating is generally attributed to the shortfall on training readiness of these units which is computed on a cumulative basis.	
2. Percentage of Ready Reserve Units in prescribed readiness condition		60%	60%	60%	60%	60%	0%	-	-	-	-	-60%	As of this period, none of the 82 Ready Reserve Battalions (RRBNs) maintained has attained the prescribed REDCON of 68% (Output Indicator Nr 2b). This was due to the accomplishment of 1.13% average training readiness of RRBNs. The restrictions posed by COVID-19 Pandemic continue to hinder the implementation of all training programs for the RRU since it mostly requires physical attendance of reservists.
