Records and brochure check will also be conducted as appropriate. The physical inspection of the sample may be conducted at Manufacturer's/supplier facilities.</p> <p>Quality Assurance Provisions:</p> <p>Responsibility for inspection- Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his/her own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any inspections set forth in this document where such inspections are deemed necessary to ensure that supplies and services conform to prescribed requirements. Responsibility for compliance- All items must meet all requirements as stipulated under the General, Material and Construction provisions. The inspection set forth in this document shall become a part of the contractor's overall inspection system or quality program. The absence of any inspection requirements in the document shall not relieve the manufacturer of the responsibility of assuring that all products of supplies submitted to the government for acceptance shall comply with all requirements of the contract.</p> <p>Responsibility for dimensional requirements- Unless otherwise specified in the contract or purchase order, the contractor is responsible for assuring that all specified dimensions have been met. When dimensions cannot be examined on the end item, inspection shall be made at any point or at all points in the manufacturing process necessary to assure compliance with all dimensional requirements.</p> <p>Page 3 of 9 Honor, Patriotism, Duty</p>	Technical Data	Requirements	4.
