<b>I. Operations</b>														
<b>OO : Level of mission capability of army units in ground operations attained</b>														
<b>LAND FORCES - DEFENSE PROGRAM</b>	310100000000000													
<b>Outcome Indicators</b>														
1. Percentage of Tactical Units provided to force employers that are in prescribed readiness condition		79%	79%	79%	79%	<b>79%</b>	20%	48%	-	-	-	-31%	The 48% accomplishment for the period represents the 100 tactical units provided to UCs that attained the prescribed Readiness Condition of 83% ( <b>Output Indicator Nr 2a</b> ), out of the 208 tactical battalions provided to UCs. Meanwhile, the -31% variance represents the 65 tactical units whose REDCON is still below the prescribed rating. The deficiency of the remaining units is generally attributed to the shortfall on thier training readiness, which is expected to improve on the succeeding quarters upon completion of all training programs.	
2. Percentage of Ready Reserve Units in prescribed readiness condition		60%	60%	60%	60%	<b>60%</b>	0%	1%	-	-	-	-59%	As of this period, only one (1) of the 84 Ready Reserve Battalions (RRBNs) maintained has attained the prescribed REDCON of 68% ( <b>Output Indicator Nr 2b</b> ). This was due to the accomplishment of 28% average training readiness of RRBNs. The restrictions posed by the pandemic continue to hinder the implementation of all training programs for the RRU since it mostly requires physical attendance of reservists.

<b>Output Indicators</b>													
1. Number of tactical and ready reserve units maintained													
a. Tactical Battalions		240	240	240	240	240	220	220	-	-	-	-20	The variance for this indicator will be satisfied once all programmed activation of units which are already on the different stages of organizational development process, will be approved by the SND.
b. Ready Reserve Battalions		86	86	86	86	86	82	84	-	-	-	-2	For the period in review, the increased number of RRBn maintained was due to the activation of Basilan and Sulu RRBn. While the variance of two (-2) RRBns will be accomplished upon activation of 1505RRBn (Dinagat Island) and 1106RRBn (Davao Occidental) that are programmed this 2nd Semester CY 2021.
2. Percentage of operational readiness of tactical and ready reserve units													
a. Tactical Battalions		83%	83%	83%	83%	83%	77%	82%	-	-	-	-1%	The -1% shortfall vis-à-vis the annual target is acceptable for the period considering that the training readiness of these tactical battalions is expected to reflect a significant increase in the succeeding quarters.
b. Ready Reserve Battalions		68%	68%	68%	68%	68%	28%	41%	-	-	-	-27%	The -27% variance is basically due to the very low training REDCON of RRBns Maintained which still at 41%. The primary reason for this deficiency was the delayed implementation of the unit training programs of these units. Nevertheless, this training gap will be addressed by the effective implementation of individual training programs for Reservists in the succeeding quarters.
